

## Mounting instructions of SE-GT GPS Antenna Item Number: 303103

### **SE GT GPS antenna must be mounted on the roof of the vehicle**

By using the roof antenna the interior Info Sign and Driver Clock will receive the correct time signal from GPS satellites. The shift between summer and winter time is automatic.

The GPS antenna is not affected by atmospheric conditions and it receives the time signal when the vehicle is in the open.

SE GT GPS antenna is maintenance free since the konstruktion is a dust and waterproof (IP 66).
